Section 1

Introduction

Summary of proposals to support simpler licensing

- 1.1 Ofcom is required to make statutory regulations in order to make or change fees for Wireless Telegraphy Licences (the licences under which use of radio spectrum equipment is authorised). This consultation concerns a number of deregulatory proposals for removing or simplifying fees, expected to start from 1 October 2006.
- 1.2 Ofcom proposes the following changes to fees-

Class of licence	Current fees	New fees
Amateur radio	£15 per year. Free for amateurs under 21 and over 75 years of age.	Free, for lifetime of licence, if obtained via internet. £20, for lifetime of licence, if not obtained via internet. Concessions for age will not be applicable for licences obtained this way. (Note free option via internet). Existing licensees will be granted free replacement lifetime licence.
